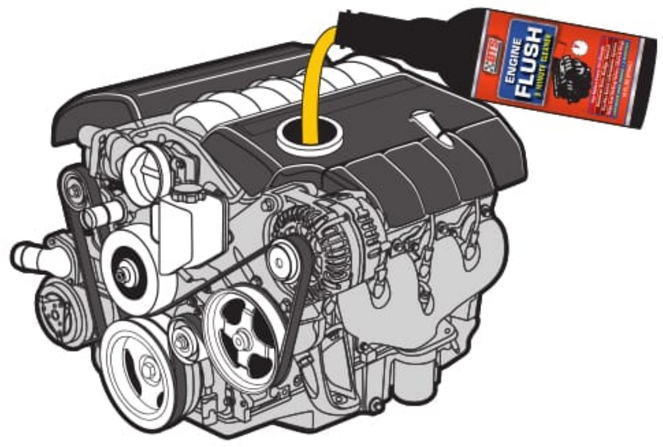
BTS PROFESSIONAL SERVICE PRODUCTS

WINNING PERFORMANCE

ENGINE FLUSH
5 MINUTE CLEANER



- Use Before every oil change
- Removes Gum, Sludge ,Varnish
- Flushes entire Lubrication System
- Helps Free Sticking Valves, Lifters & Rings

BTS 5 Minute Engine Flush is specially formulated to clean and flush harmful deposits from the entire lubrication system and internal rotating assembly. This powerful pre-treatment, prior to an oil change, dissolves gum, sludge, and varnish from the crankcase, valve train, oil passages, valves, and rings. After treatment, these harmful deposits are flushed away with the oil & filter change.

Stock No. B-00250 16 FL OZ (473 mL) 12 Pack Carton UPC-047737002501

RADIATOR FAST FLUSH
10 MINUTE CLEANER

- Restores Cooling System Efficiency
- Removes Rust, Oil & Scale Deposits
- Non-acid Formula • Safe for Aluminum

BTS Radiator Fast Flush cleans to restore efficiency and help prevent overheating. It removes rust, oil and scale and suspends it for draining. Fast Flush is non-acid, requires no neutralizer, and safe for use with aluminum.
