

PRODUCT DATA SHEET

Professional Heavy Duty PT-1TM Super Fast Penetrating Oil Stock No. B-00017

BTS B-00017, PT-1 Super Fast Penetrating Oil is a fast acting, two phase penetrating formula that attacks rust and corrosion to quickly free frozen nuts, bolts and parts. First it penetrates to loosen corrosion, scale, dirt and other binding elements. Then phase 1 begins to evaporate, which increases the ability of phase 2 to lubricate. This eases the removal of corroded nuts & bolts and reduces friction of sliding parts.

Usage Suggestions: For Stuck or Frozen Parts – Shake well, then saturate the troubled area with PT-1. Allow to penetrate for at least a few minutes or longer if possible. For best results, tap lightly and spray again, then move or remove for desired results. For sliding or moving parts: spray and work vigorously to clean and lubricate.

V.O.C.: Compliant with all U.S.State and Federal Regulations
