Industrial Grade Rust Converter and Primer Stock No. B-00060

BTS Industrial Grade Rust Converter and Primer is formulated for use on any steel or iron surface. It penetrates rust and chemically converts it to a protective black coating that resists moisture and future rust. B-00060 Rust Converter and Primer is easy to use and provides excellent results. To apply; first remove as much loose rust as possible, then apply like primer to rusted surfaces. This coating can be left as is, or it is compatible with most top coatings.
