

DIESEL FUEL INJECTOR TREATMENT

Stock No. B-00565

Carbon & Varnish deposits on fuel injectors can disrupt the fuel spray pattern and air/fuel mixing which will reduce power and waste fuel. Small droplets of fuel accumulate at the tip of the fuel injectors when an engine is shut off. This "Heat Soak" is a major reason for deposits forming in this critical area. These deposits also lead to rough idle, hard starts, and lost acceleration. BTS Diesel Fuel Injector Treatment is formulated to quickly help unclog & clean dirty fuel injectors. One bottle helps to improve engine performance by dissolving harmful carbon, gum and varnish deposits to restore more complete fuel atomization.

- BTS Diesel Fuel Injector Treatment is U.S. EPA Registered, and meets the EPA regulations for Low Sulfur Fuel.
- For best results use every 3000 miles (4800 KM), or when you notice performance or fuel economy is down.

TREATMENT:

For Best Results Use One Bottle per 21 Gallons

BENEFITS:

- For Smaller Vehicles or Equipment: One Ounce Treats .75 to 1.75 gallons
- One Treatment Helps Unclog Dirty Fuel Injectors *FAST*
- Saves Fuel + Restores Lost Power & Acceleration by Cleaning Injectors
- Improves Lubricity To Protect Injectors and Fuel Pump
- Extends Filter Life
- Reduces Smoke & Emissions (HC & CO)
- EPA Registered

APPLICATIONS

Automobiles
Marine Engines
Trucks & Recreational Vehicles

Construction Equipment
Stationary Engines
Lawn & Garden Equipment

SPECIFICATIONS

Bottle Size: 12 oz.

Net Contents: 12 fl oz. (350 mL)

Shipping Classification: Consumer Commodity, ORM-D, UN1993

Carton Pack: 12

Case Weight: 10 lbs

**PHYSICAL/CHEMICAL
CHARACTERISTICS**

Boiling Pt.: 360°F (182.2°C)-550°F (287.8° C)

Specific Gravity: 0.911

Vapor Density: >1.0

Evaporation Rate: <1

Solubility in Water: Not Soluble

Flash Point: >140°F (60°C)

Method Used: Pensky-Marten Closed Cup

Appearance/Odor: Pink to Brown Liquid with Slight Hydrocarbon Odor

HMIS RATINGS

Health: 0

Physical Hazard: 0

Flammability: 2

PPE: C
